respected

54½ - this man wears a uniform
 he is singlehandedly planning/analyzing field operations
 at least 2 levels down, i.e., skipping echelons
 but this seems to be acceptable to his lieutenants
 who respect - and possibly revere him.

A/S - ~~subordinates~~
 may not be

AI - a person with whom I might follow into battle
 the attracted to him professionally

ADL - impression of a Sov officer ~~in~~ in a
"foreign" but ^{politically} controlled environment LIKE - LA or AFGAN

does not coordinate with
peers - there are none present
all are subordinate.

Subordinates are used to his
continuing presence -

he makes them uncomfortable
but they trust his experience
and his battle savvy.

Does not get directly involved in
engagements. Kept abreast of
operations as they occur.

Lieutenants are capable - professional

big boned
